

## 0-3 Months The Fledgling

By the end of this stage, your baby should be able to:

- ♥ Raise their head and chest when lying on their tummy
- ♥ Open and shut their hands
- ♥ Bring their hand to their mouth
- ♥ Turn their head towards a sound or a dangling toy

Use these posters to create your own Wiggly Babies timeline to display in your nursery. Place pictures of the babies in your care at each age stage as they grow.
